# Finishing an Assignment & Checking Your Grade

## Assignments: How to "Mark As Done"

Is that red exclamation point driving you crazy? Follow these steps to make it go away and to help your teacher see who has completed the assignment.

1. When you've submitted an assignment that does not automatically get marked as "Done", click "**Open**", then "**Mark As Done**". (See images below)
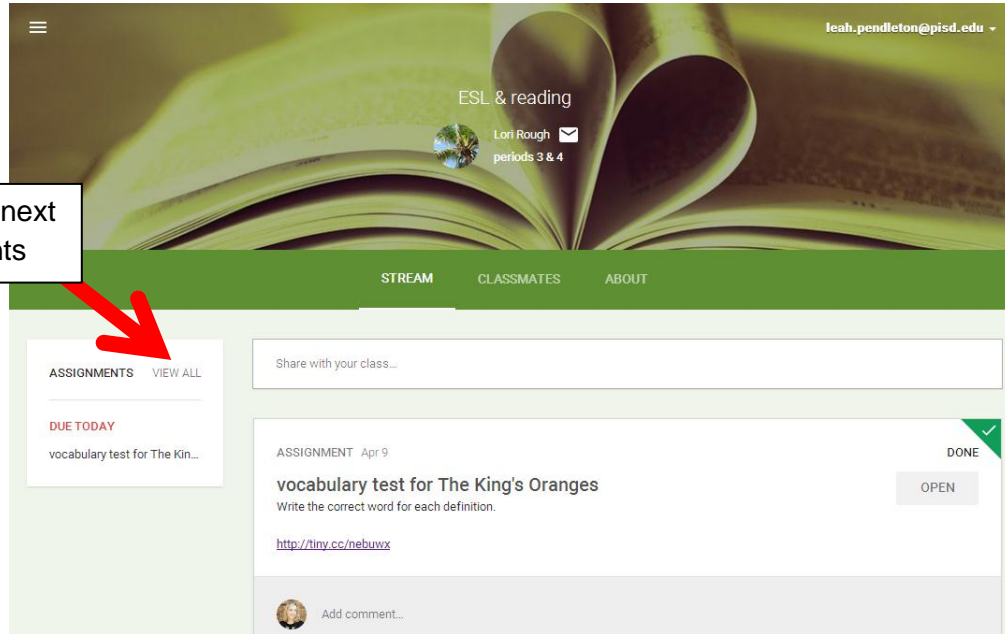

You don't have to attach anything in this assignment so just click "Mark As Done".

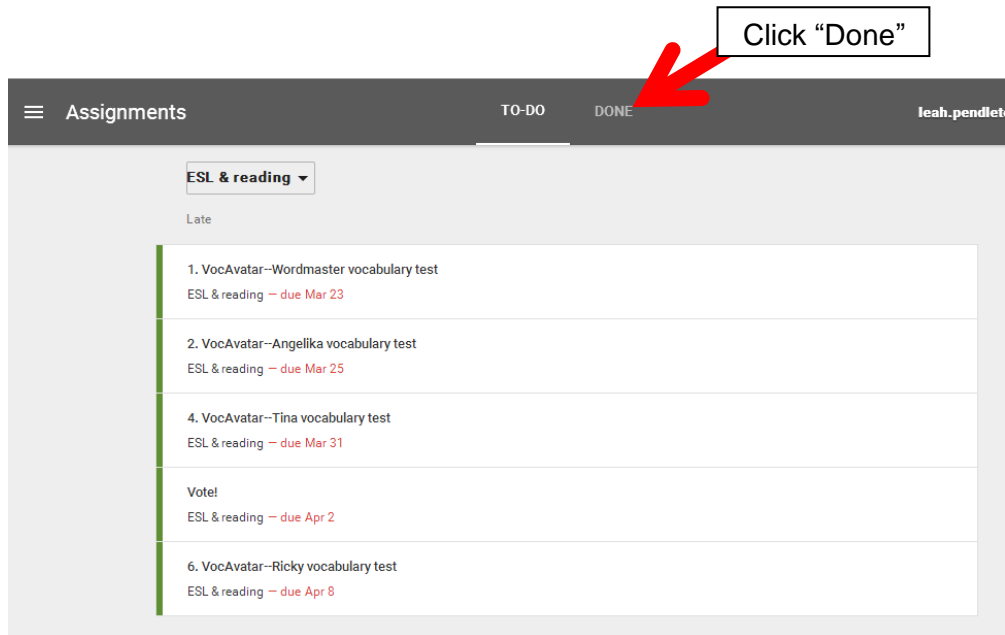

That's it! Now the red exclamation point is gone and you see a green checkmark indicating that you're done with the assignment!
