

TEACHERS (grades K-8) log in to iStation using the iStation Teacher icon in the PISDApps folder. Teachers will **not** need to install any software on their computers. Alternatively, teachers can type the following URL in their browser's address bar: <http://secure.istation.com>.

STUDENTS will go to the App Depot and install the program on their computers. The install icons are listed in the **App Depot** as **iStation –CarlisleInstall**, **iStation –SaiglingInstall**, etc. for each site. Once installed, the shortcut icon can be found in the **Classroom Tools** folder in **PISD Apps**. The shortcut is labeled **The Imagination Station**. Students will login by entering **tx** followed by their student ID# in the User Name field, and just their student ID# in the password field. (i.e. **tx123456; 123456**)

Do **NOT** enter User Name/Password information in the fields provided.

Instead, click the **Single Sign-On for Plano ISD** link.

If prompted, enter your network username & password.

The screenshot shows the iStation login interface. The main heading is 'Log On'. Below it, a welcome message identifies the user as logging into the Reports and Management Web site for Memorial Elementary School (memorial.plano.tx). A question asks if this is the wrong school, with a 'SELECT a different school' link. There are two input fields: 'User name' and 'Password', both of which are circled in red with a diagonal slash through them, indicating that users should not enter their credentials here. A 'Log On' button is positioned below the fields. A link for 'FORGOTTEN YOUR USER NAME OR PASSWORD?' is also present. At the bottom of the page, there is a section titled 'Single Sign-On for Plano Isd' which includes the instruction 'LOG ON with your Plano Isd credentials (user ID and password)' and a red apple icon with a white 'i' inside.

Teachers do not make assignments in this program; the program administers automated placement tests to each individual student. The system will guide each student through the program based on his or her needs and progress.
