

## PISDGUEST WIFI NETWORK OVERRIDE

The PISDguest Wi-Fi network defaults to a restrictive web browsing policy.

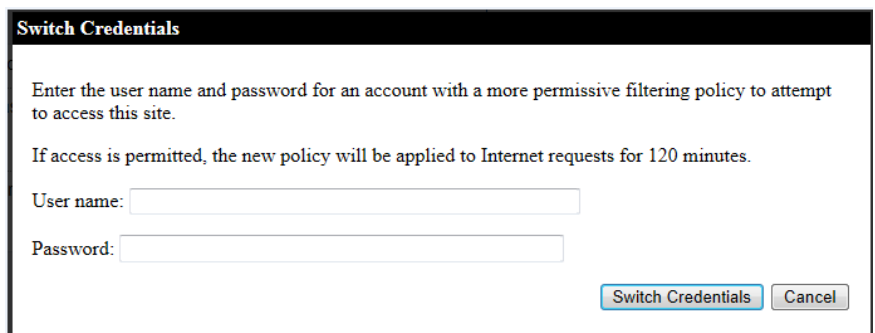

To override this restriction on your personal device follow the steps listed below:

1. Launch the browser on your personal device
2. Browse to <http://guestlogin.pisd.edu>
3. Your browser will open to a blocked page as shown.
4. Select "Enter New Credentials"

5. Enter your PISD network login and password in the user name field.  
(Same login and password that you use to access your computer each day)  
Example: John.Smith

6. Select "Switch Credentials"

**Switch Credentials**

Enter the user name and password for an account with a more permissive filtering policy to attempt to access this site.

If access is permitted, the new policy will be applied to Internet requests for 120 minutes.

User name:

Password:

**Switch Credentials** **Cancel**

7. You will receive a message  
"You may continue browsing"
